WHY NO COW?

For environmental reasons we are minimizing our use of cows milk.

SPROUD is a creamy plant based drink made from yellow peas,
sustainably grown in Canada and Europe. No lactose, no gluten, no
soy, no GMO, low in sugar and fat..the list goes on! We proudly use
SPROUD in and with our hot drinks, but we have a great selection of
other plant based drinks as well, such as oat, almond, soy and more.

*If you would normally have dairy, and would like to try **SPROUD** before
you buy, we would be happy to give you a sample!*
